EDUCATION

Masters of Engineering in IT Frankfurt University of Applied Sciences

10/2017 – Present

Frankfurt am Main, Germany

Courses

- Stochastic Signals and Systems
- Methods, Systems and Networks for Digital Communication
- Mobile Computing
- Computational Intelligence
- Distributed Systems and Computer Networks
- Digital Switching and Routing
- Automation Laboratory
- Development of Service Robot with NAO in Python

Bachelor in Electronics and Communication Engineering

Kantipur Engineering College, Tribhuvan University

08/2010 – 11/2014

Lalitpur, Nepal

Courses

- Microprocessor
- Computer Graphics
- Computer Network
- Telecommunication
- Wireless Communication
- Discrete Structure
- Computer Organization and Architecture
- Embedded System
- Filter Design
- Digital Signal Processing

WORK EXPERIENCE

Site Engineer Bizinsider Tech Nepal

12/2014 – 03/2017

Kathmandu, Nepal

Conducts maintenance and operation of telecommunication sites as well as conducts survey in remote areas for feasibility study

Achievements/Tasks

- Team lead for GSM-BTS telecommunication sites
- Planning and Organizing team for survey
- Team lead for timely done reports

Contact: Bibek Singh

SKILLS

Python

Java

Javascript

CSS

HTML

PROJECTS

Minimizing a feature vector using PCA

- Capturing data using Ultrasonic sensor and implementing different Machine Learning Algorithms in frequency domain, comparing the accuracy of the algorithms, reducing the feature vector by using PCA in Python.

Parameter Estimation: Slope

- Estimating the slope of a straight line under noisy measurement condition by using Linear Regression, predict the slope with different dataset in Python.

Protocol Emulator for IPv4

- This protocol is used to transfer a message in JSON format from Client to the Server using the different path that is from the intermediate routers connected in between client and server. The networking is performed in the Java platform.
